

L-5 Extension Spray Lance

L-5 Extension Spray Lance

The L-5 Lance offers a fine spray pattern with greater reach and flexibility. The L-5 is perfect for the application of insecticides, fungicides, sanitizers, growth regulators and other agricultural chemical solutions.

Featuring an extendable wand that increases

in length from 28" to 41", a 1/4 turn valve and a ring with 5 conical nozzles, the L-5 Lance provides a variable flow, turbulent conical spray that is perpendicular to the wand.

The L-5 Lance can be used with the MSO, Hydra and BP-4Li Sprayers.

Specifications

Maximum Pressure - 500psi

Part numbers:

L-5: Standard lance

L-5QC: Standard lance w/stainless quick connect

L-5E: Lance w/5 ring nozzle; no valve/no handle - For BP-4

Flow rate - 0.5 GPM @ 500psi

Length - 28" to 41", Adjustable
