Pattern Adjustment Lever  
Easy adjustment  
improves pattern distribution

Adjustable Cowl  
Reduces spray-back

Ergonomic angle  
More comfortable sprays

Short pull-trigger  
Less strain when spraying

## MS40-TG Turbo Spray Gun

The MS40-TG Turbo Spray Gun provides a fine, conical spray, perfect for the application of insecticides, fungicides, sanitizers, growth regulators and other agricultural chemical solutions.

The Turbo offers excellent coverage with a turbulent, forward spray. The pattern can be adjusted from a cone to a straight-stream using the adjustment lever on the side of the gun.

The Turbo comes with a 1.5mm tip included. Other nozzle sizes are available as listed below.
