

ii ri CONTROLLER

Fits Different Valves

ii ri Bluetooth Controller

The Dramm ii ri Bluetooth Irrigation Controller offers simple irrigation or mist management with an easy-to-use interface. Simply download and install the smartphone app on your iOS or Android phone and press the connect button on the ii ri to start.

Program multiple start times, selected days or even misting cycles from your phone.

Even create different irrigation profiles offline and quickly download them to your controller when a change is needed.

The ii ri is simple to use and requires no wiring. It is completely waterproof and can withstand the elements when used outdoors.
