

pulsFOG® TURBO HYBRID

TULV110 pulsFOG® Turbo Hybrid

The PulsFOG Turbo Hybrid is an electrically powered, pneumatic cold-fogger. Its high-performance turbine creates a strong, warm flow of air that atomizes and propels the fog up to 75 feet, depending on the particle size.

By changing the nozzle, the output and droplet size

may be adjusted for a variety of results.

The Turbo Hybrid is perfect for the directed application of pesticides, fungicides and disinfectants, including corrosive products. Because this is a cold fog, the Turbo Hybrid is ideal for the application of bio-rational products.

Specifications

Power - 110v AC 4.4A

Tank size - 5 Liter

Distance propelled - 75' max

Flow rate - 0.7 mm nozzle- 5.3 L/hr

0.8 mm nozzle- 7.7 L/hr

1.0 mm nozzle- 10.8 L/hr

Particle size - 10 – 100µ
